## OMA - Tiny Elegant Font Sample (approximately 3/8")

You have downloaded a sample of our Tiny Elegant Font. While we call this font tiny (it is under 1/2"), please note that it stands at approximately 3/8" and is the tallest amongst our tiny fonts. This font has been entirely digitized by hand, making sure that letters connect easily. As its name implies, this is a very elegant font. Good for use on labels and personalizing of handkerchiefs etc. Unlike our other tiny fonts, this font can be stitched with regular 40 wt embroidery thread and a size 75/11 needle. Please try our sample before purchasing.

Your purchased download will include all lower and upper case letters and numbers 0 through 9. In addition, some commonly used punctuations are part of your download as well. Comes in 10 different machine formats as well as in bx for Embrilliance users.

|              | <b>Dimensions</b> | <b>Stitch Counts</b> |
|--------------|-------------------|----------------------|
| Capital A    | 0.44" h x 0.59" w | 304                  |
| Lower case a | 0.23" h x 0.30" w | 132                  |

Extended license purchased from font author.
